Vases

The Twirl Vase

The name 'Twirl' implies something spiraling around itself multiple times, a concept beautifully reflected in the colors and stripes gracefully winding around the vase. These vases are hand-blown into a specially crafted mold, making each vase unique in its colors and patterns.

The Twirl vase is available in two different variants:
The original Twirl vase
Twirl vase Tall

The two variants in the series boast organic silhouettes that create a soothing atmosphere. Whether you prefer warm romantic colors, natural greens and sandy hues, or cool and refreshing tones in mint and purple, there's a Twirl vase to suit every taste.

With their captivating colors and patterns, Twirl vases can stand alone as art pieces but can also be styled with beautiful bouquets, branches, and small potted plants.
